OTIS Safety Steam and Hydraulic ELEVATORS, OTIS BROS. & CO.
92 and 94 Liberty Street, New York.

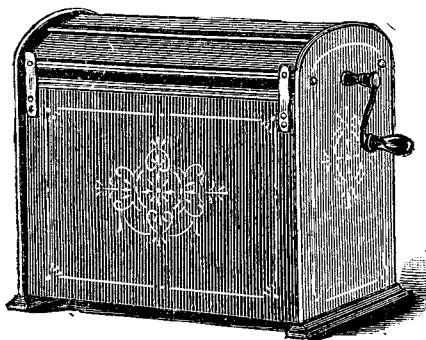

ILLUSTRATED AND DESCRIPTIVE CIRCULAR

— OF THE —

PLAYS ANYTHING.

ANYBODY CAN PLAY IT.

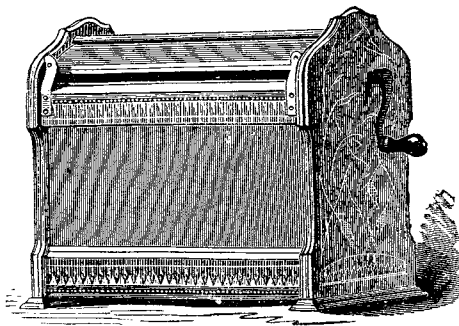

Style F.

Length, 11½ inches ; width, 8 inches ;
height, 10½ inches. Weight, boxed
for shipment, 11½ pounds.

Price, including 14 feet of music, \$8.00.

Price of music for this style, 4c. per foot.

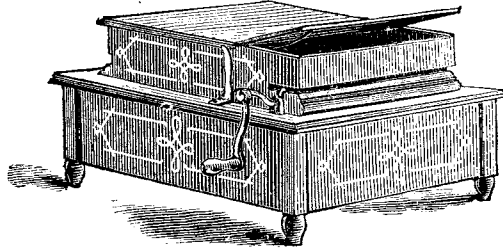

Style L.

Price, including 14 feet of music, walnut,
\$9.00 ; ebonized, \$9.50.

Style L is similar to style F in size and
quality of tone, but has a heavier case, and
is more elaborately ornamented.

Though the smallest of our instruments, they have a full, clear tone, are well
made, and the range of music is, practically, unlimited. We have already a large number
of selections prepared for these instruments, embracing Hymn Tunes, Popular Airs,
Operatic and Dance music.

The OrguINETTE.

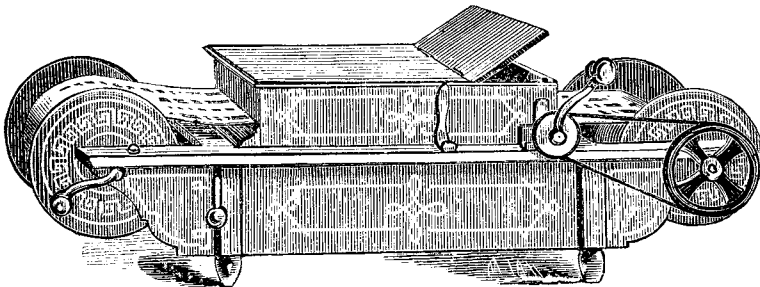

Style G.

Length, $14\frac{1}{2}$ inches ; width, 12 inches ; height, $7\frac{1}{2}$ inches. Weight, boxed for shipment, 14 pounds. Price, including 14 feet of music, \$10.

Price of music for this style, 4c. per foot.

This instrument plays the same music as style F, but is larger and stronger in tone.

The expression box introduced on this style forms a tone chamber, which, by means of the hinged cover, can be opened or closed by the performer's left hand while playing, thus producing delightful crescendo or diminuendo effects at pleasure.

Style H.

Length, 27 inches ; width, $12\frac{1}{2}$ inches ; height, 8 inches. Weight, boxed for shipment, 22 pounds. Price, including 14 feet of music, \$14.

Price of music for this instrument, 4c. per foot.

Rolls will be made to order from music selected from list for styles F and G without extra charge.

The same instrument as style G, but with Reel Attachment for the more convenient holding and playing of the tunes. In this style the tunes are joined consecutively and placed on a spool, from which the sheets pass through the instrument, underneath the reed board, and are received upon a similar spool. These spools are readily taken out and others inserted when a change of music is desired, or the tunes can in a moment's time be wound back and played over again.

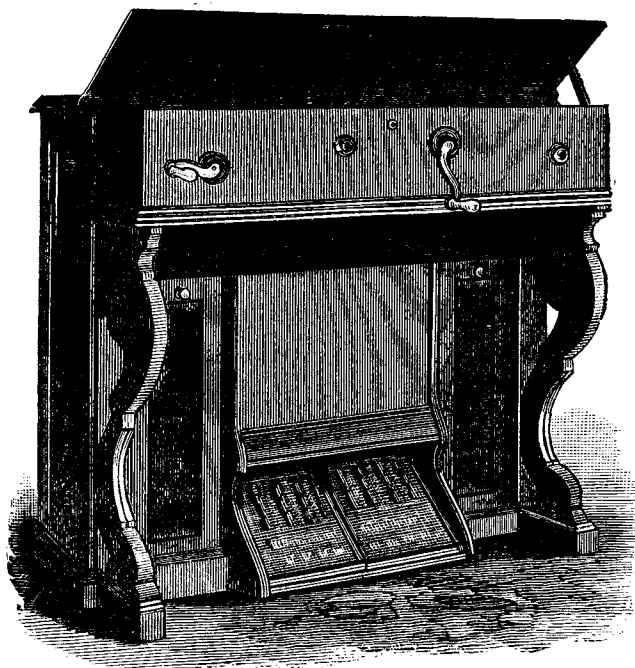

Automatic Music Sheets.

OUR Automatic Music Sheets, for use with style H, can be placed upon Rollers for Spools. Each Roller contains twenty or thirty tunes, and is classed under the head of: 1st—SACRED MUSIC; 2d—POPULAR AIRS; 3d—HORNPipes, REELS, WALTZES, POLKAS, &c.; 4th—OPERATIC MUSIC; 5th—One of any of the sets of QUADRILLES named in the tune list. The provision for repeating the Sacred Music and Popular Airs is perfect. The Tunes under the third head, viz., Hornpipes, Reels, &c., of the same class, are arranged upon the sheets in consecutive order, so that the time is kept up, while a pleasing variety of tunes is produced. The sets of Quadrilles are complete in quantity, and mathematically correct in time; and, as all the changes of figures are printed on the sheets, any one, even a child, without an ear for music or musical knowledge, can provide the music, do the prompting, and so far take the place of professional musicians as to call forth the lament: "Our occupation is gone." Musicians are not everywhere available. Very few can afford to engage them when they are available. The amount usually paid them for one night will buy our ORGUINETTE and MUSIC enough for every night in the year, without the unpleasantness and restraint caused by the presence of strangers.

Our Music sheets are all prepared and mucilaged on their ends, so that they can be joined together any time, thus affording purchasers the advantage of the instalment plan, each instalment securing a complete part, which they can add to according to their means.

The Cabinet Orguette.

The Cabinet Orguette consists of a Reed Chest, Action, and Bellows. It is played by both feet and hands; therefore dividing what little labor there is—the feet to pump the air to fill the Reed Chest, the hands to turn handle to pass the music, which consists of rolls or sheets of durable and fine paper, over the Reed Chest, which, at the same time, works the most perfect, simple and durable of actions, producing the most human-like execution. The paper used for the music is perforated, and passes under the Action, and as the little artificial fingers or levers come in contact with the perforations in the paper the desired music is rendered. They fall through and open the Valve that allows the air to pass through the reed, producing the most wonderful effects and soul-inspiring music. The beauty of the action is its prompt execution, and that the performer can hold any chord or retard at any point in the music being performed, without an exhaust of air, as the pedals worked by the feet keep up a full supply of air for fast or slow music.

Any LODGE, POST or ENCAMPMENT, having one of these instruments, can always have the benefit of all the music authorized by their ritual, whether an organist be present or otherwise.

 Special rolls of Lodge Music made up to order.

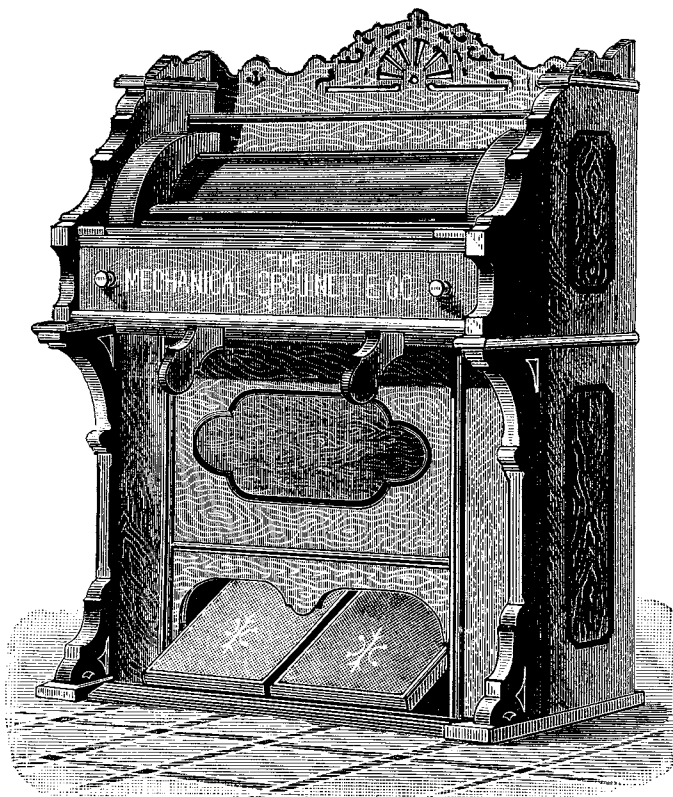

Price of style No. 3, Single Reed, including 150 feet of music,	\$60.
“ “ “ Double “ “ “ “ “ “ “	\$75.

Price of music for this instrument is 8c. per foot.

Height, about 3 feet; length, 37½ inches; depth, 18 inches. Weight, boxed for shipment, 170 pounds.

The Musical Cabinet.

ONE OF THE MARVELS OF THE AGE.

Prices, \$75 to \$150, including 100 feet of music.

The Musical Cabinet is a splendid organ, operating almost automatically, without a key-board, so that a child can perform on it, and rival the regular organ performance of the most accomplished professors.

The music that can be performed on it is unlimited.

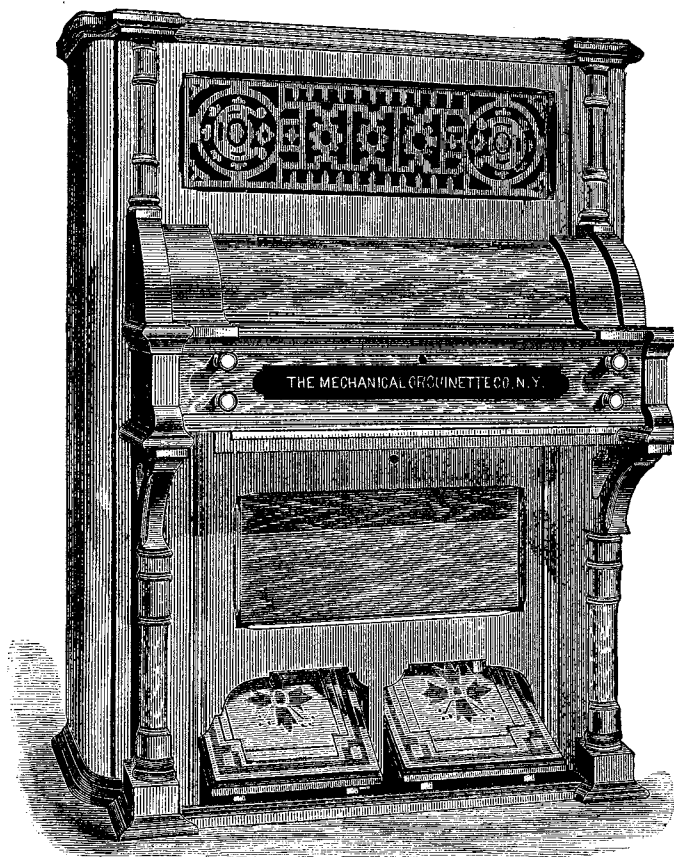

Its execution is faultless, strict in melody, harmony and rhythm.

It consists of a Reed Action and Bellows, similar to that used in our Parlor Organs, though somewhat smaller. *It is played with Pedals as in the Parlor Organ.*

The case is made of black walnut, and measures 2 feet 10 ins. wide, 1 foot 9½ ins. deep, and 4 feet 1 inch high; weighs, when packed for shipping, about 230 pounds.

The Automatic Piano.

Our Automatic Piano is a small upright Piano, 4 ft. 9 ins. high, 3 ft. 7 ins. long, and 2 ft. 4 ins. deep.

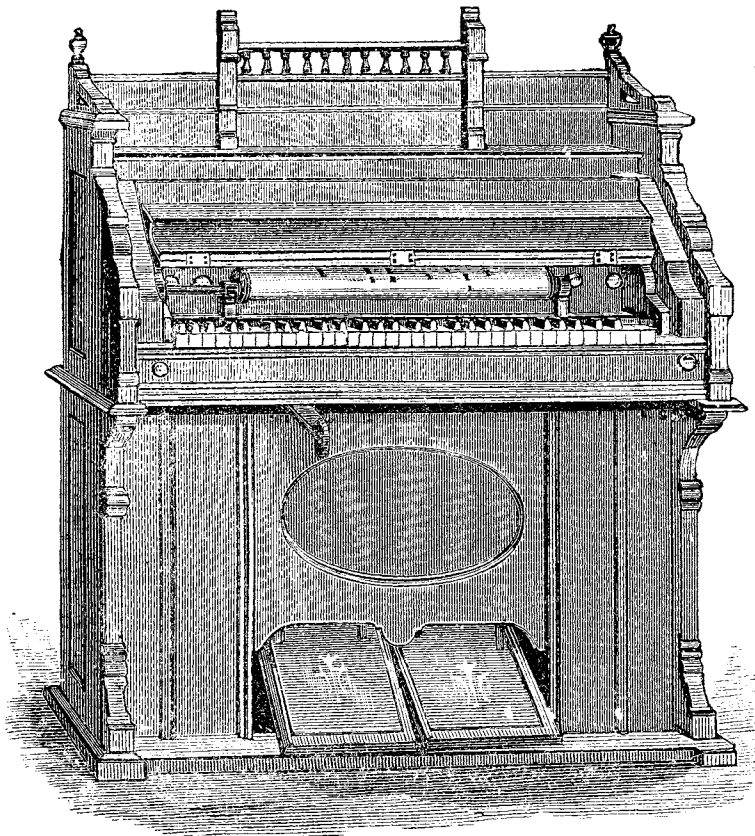

Prices, \$350 to \$500.

It is played by operating the pedals like a parlor organ, while the desired expression is obtained by means of the stops. It also has a key-board which can be used for playing accompaniments, &c. In rapidity of execution, it is unexcelled by any living performer, while the perforated music sheets render the variety of the music and the number of selections practically unlimited.

Being well made of the best piano material, it does not, like some imported instruments, have to be virtually re-built to stand this climate; while its simplicity of construction combined with its brilliant performance, place it easily in the front rank of all mechanically operated pianos.

The Combination Organ.

The Combination Organ is a marvel of ingenuity, having a full five octave key board, and from four to fourteen working stops; giving any one who understands music, or wishes to study it, the use of the key-board, the same as an ordinary organ, while in an instant it can be changed into an automatic organ, so that those who cannot perform upon the keys, or have no knowledge of music whatever, can perform the most difficult, as well as the most simple music. With a little practice the key-board and the automatic parts can be played together, producing fine orchestral effect.

The Combination Organ is invaluable for Churches, Sunday Schools, Lodges and Home use, filling a long felt want of an organ, upon which any one can play. As a key-board instrument, it is played as an ordinary organ; as an automatic instrument, by simply using the pedals, leaving the hands free to use the key-board, or otherwise as may be desired.

Style No. 1.—Five octave, two sets of reeds, four to six working stops, walnut case, extra finish. Height, 53 inches; length, 44 inches; depth, 23 inches. Weight boxed for shipment, 285 lbs. Price, \$150.00.

Style No. 2.—Five octave, three sets of reeds, ten to fourteen working stops, extra heavy finish walnut case, ornamental top. Height, 55 inches; length, 45 inches; depth, 24 inches. Weight, boxed for shipment, 300 lbs. Price, \$175.00.

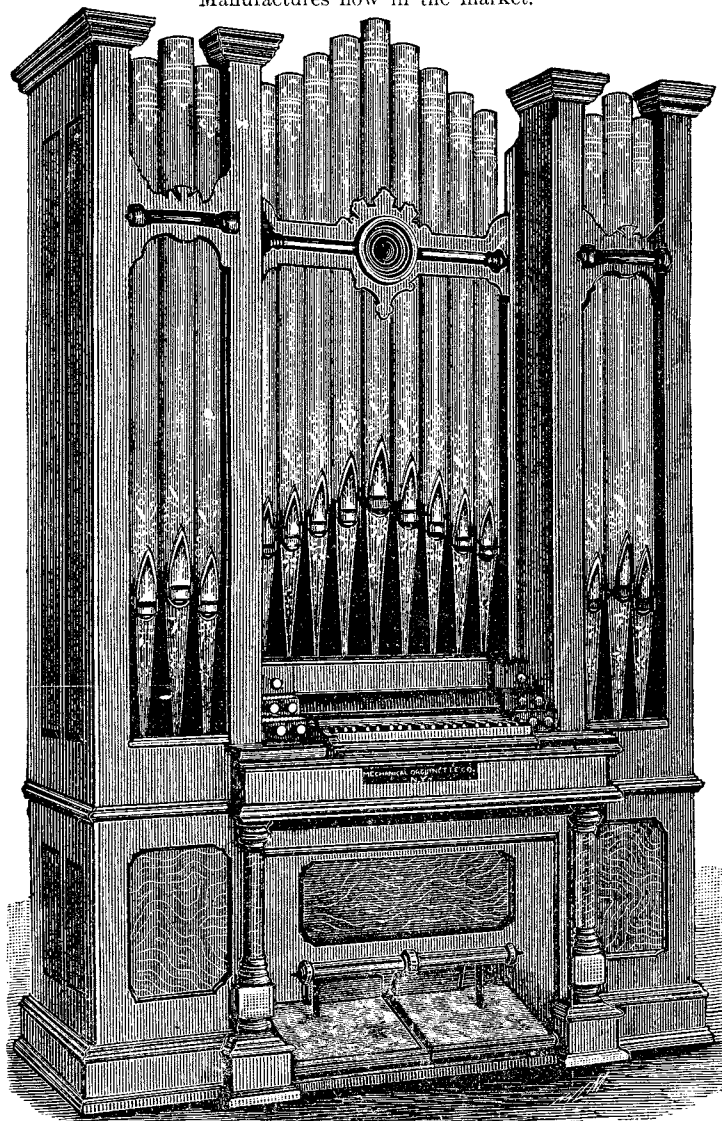

Style No. 3.—Five octave, three sets of reeds, ten to fourteen working stops, double extra heavy finished case, ebony inlaid, raised panels, or in gold. Price, \$200.00.

Style No. 4.—Same as Style No. 2, ebonyed, price, \$210.00.

Style No. 5.—“ “ “ “ 3, “ “ \$233.00.

Automatic Pipe Organ.

Wonderful in its Orchestral effects. Played automatically with the pedals, or if desired upon the key-board. For beauty of Finish, Perfectness of Construction, and for Volume and Power, it will compete with the several Pipe Organ Manufactures now in the market.

The Organ represented in this cut has 19 Stops, governing 360 Pipes of the best spotted metal. 9 ft. high, 6 ft. 2 in. long, 3 ft. wide, and weighs 800 lbs.

This Instrument gives the lover of music the power to play without practice, classical and operatic music producing musical effects that could not be obtained on the ordinary organ without years of labor.

Mechanical pipe organs built to order upon any scheme desired, with or without full key-board.

PRICES. \$300 TO \$2,500

S. N. GRISWOLD,

President.

NOTE.—In reply to the opposition to class teaching, we beg to state that all important musical institutions in Europe approve of and adopt the method. The class system, when applied by capable instructors, has been found to possess many advantages, being particularly applicable to beginners, causing an amicable rivalry among the pupils, while the rudiments, exercises, etc., else so fatiguing to learn, lose much of their uninviting and wearisome features. Reading at sight, a qualification so necessary to every performer, it assists to a surprising degree. One of the most notable results of class teaching is its radical removal of that deplorable habit, prevalent among so many—the habit of playing out of time. It excites emulation and the ambition of the student to excel, to become a thorough musician instead of a mere performer, and is certain of imparting self-reliance and confidence, two qualities absolutely necessary to complete success.

WHAT

— Do · you · Seek · in · Life · Insurance ? —

IS IT SECURITY ?

The "Penn Mutual" has ample assets, safely invested, earning good rates of interest, worth many thousands of dollars in excess of their cost. It is a Company firmly established in public confidence, steadily increasing its membership and its assets, maintaining a reserve at the highest standard, with a relative surplus unsurpassed by any company of equal age. **Ratio of Assets to Liabilities, \$128 to \$100.**

IS IT LOW COST ?

The "Penn Mutual" stands in the front rank. Being purely mutual, it has no dividends to earn for stockholders. Surplus is divided annually among the **members**, in proportion to their contribution thereto, beginning with the **second** payment. Since 1847 it has declared more dividends in number, and of a larger average percentage, than any other company. No company issuing such liberal policies equals it in **average low cost!**

IS IT INCONTESTABILITY ?

The "Penn Mutual" furnishes it. Its policies are incontestable, embracing every desirable and honest provision, conceding all that any company safely can. Throughout thirty-five years it has uniformly met every liability at maturity. It now emphasizes its practice by incorporating in its policies a contract of incontestability after three years, thus removing any apprehension that a claim may be disputed. No company does any more, **few as much.**

IS IT NON-FORFEITURE ?

The "Penn Mutual" leads herein. tarily adopted an equitable system of non long in advance of any legislation. That sy been enlarged and improved, and is now t extant. It provides, upon the lapse of a p the application of the Entire Legal R first, to the extension of the original sum or, second, to the purchase of Full-paid. The policy-holder has his option. No compa any more in either way.

**IS IT FREEDOM FROM
TECHNICALITY ?**

The "Penn Mutual" presents a contrac from all restrictions unnecessary to preserve equities of members. Its policies are plain, sin and intelligible. Provisions as to occupation, dence and travel are regarded as just and libe Its "Application" is devoid of all objection: features, particularly any warranty as to facts cerning which the knowledge of the applicant be uncertain or indefinite. Its forms leave noti to be desired. No other company has more acce able ones.

**IS IT ALL
OR WHICH ANY COMPANY
CAN HONESTLY
CONTRACT ?**

The "Penn Mutual" Life of Philadelpl stands READY to supply your deman. Nowhere else can you more certainly obtain all th is desirable in life insurance.

S. M. PETTENGILL & CO'S
Newspaper
Advertising Agency,
No. 263 BROADWAY,

Corner Warren Street,

NEW YORK.

THIS Agency is the oldest establishment of the kind in this country, and has, for more than a third of a century, enjoyed the confidence of the press of the country, and expended millions of dollars, to the satisfaction and advantage of its patrons, among whom are many of the great and successful advertisers of the world.

We claim for it the following advantages:

1st.—A thorough knowledge gained by long experience of the most effective and profitable mediums and methods of newspaper advertising.

2d.—Peculiar relations with the leading, most influential, and widely circulated newspapers, whereby an individual advertiser may obtain through our house advantages which he would not otherwise receive.

3d.—A complete system of examination and record, whereby an advertiser may know that he receives precisely what he contracted for, with complete vouchers, in files of newspapers always open to his inspection.

When to these is added the statement, that this agency has no interest in forcing upon the attention of advertisers selected and partial lists of inferior papers, got up to look cheap, and entrap inexperienced advertisers, but that it truly and specially represents the press of the country, we have mentioned all the features necessary to a complete organization for doing advertising in the newspapers cheaply, thoroughly, and effectively.

All persons seeking the best and most productive ways of advertising are requested to advise with us before making contracts, as we can certainly be of advantage to them. Information given and estimates of the cost of any advertising made for responsible parties without charge.

Files of all newspapers open to the inspection of advertisers and publishers, who are always welcome at our spacious offices.

10 State Street, Boston.

263 Broadway, New York.

S. M. PETTENGILL & CO.

Our intimate connection with the Press throughout the country, and long experience in the business of Advertising, enable us to give advantages to Advertisers which are appreciated by our customers.

We should be pleased to welcome you to our new offices, and should you favor us with an order, whether it be large or small, we will give it our most careful attention.

VICTOR BABY FOOD

RESULT OF AN ANALYSIS BY AN EMINENT PHYSICIAN.

Dr. Damon, A.M., M.D., of Boston, says:—I have examined your Sample of Food. It contains all the ingredients for improving imperfect digestion, and is a good substitute for mother's milk. It can also be beneficially used by invalids.

New York, Feb. 25, 1880.

Messrs. VICTOR MAUGER & PETRIE:

GENTLEMEN—Some six weeks ago I procured three boxes of **Victor Baby Food**, which my wife pronounces the best food for infants she has ever used. We had previously used other things, which either did not agree with the baby or afforded no nourishment. The **Victor Baby Food** has met every requirement.

Yours truly,

SAMUEL STONE,

540 Second Ave.

FROM A WELL-KNOWN DRUGGIST.

I have been selling the **Victor Baby Food** for some time past. Ladies to whom I sold it speak of it in the highest terms as a substitute for mother's milk. In my long experience as a druggist I have never sold anything that gives such universal satisfaction,

HENRY DOUGLASS, JR.,

68 Wythe Ave., Brooklyn, E. D.

Messrs. MAUGER & PETRIE:

GENTLEMEN—I take pleasure in bearing testimony to the excellence of the **Victor Baby Food**, which I have been giving to my baby for the last five weeks. It is better than anything I have yet used, after having tried various other things.

Respectfully,

New York, Feb. 17, 1880.

Mrs. REBECCA SOMERS,

64 Charles St., N. Y.

PETRIE'S FACE POWDER.

The kind attention of the Ladies is invited to this
specially termed

"PAR EXCELLENCE" Face Powder

Of the present age.

ITS MANY ADVANTAGES

will be at once recognized and appreciated, making it

AN INDISPENSABLE REQUISITE

To a Lady's Toilet.

Unlike many other powders which contain ingredients that cannot but prove harmful to the skin,

Petrie's Face Powder

Is warranted to contain absolutely nothing that will be of the least injury to the most delicate skin.

(Read Dr. Endemann's professional endorsement below.)

It has a most refreshing and beneficial effect on the skin, imparting to the same a peculiar softness and clearness; and while imperceptible after it is applied, its lasting properties will be found unequalled by any other. Highly recommended to the theatrical profession. A trial is respectfully solicited. Three shades, White, Pink, and Flesh. A Litho-photo of one of four Celebrated Austrian Beauties given away with each box of Petrie's Face Powder.

Can be had at all Druggists, Price 25 CENTS per LARGE BOX.

MR. JOHN PETRIE, JR., 110 Reade Street, New York:

DEAR SIR—I have examined the sample of Petrie's Face Powder sent by you, and have found it to be perfectly free from any poisonous substance, or such which can be considered injurious to health. The mass is homogeneous, and appears to be a natural silicate reduced to an impalpable fine powder. A box of the same Face Powder bought at a New York Druggist's was found on examination to be identical with the material sent by you.

Respectfully yours,

DR. H. ENDEMANN, Analytical and Consulting Chemist, 33 Nassau St.

New York, Sept. 1, 1881.

Awarded Diploma at American Institute Fair, N. Y.
December 3d, 1881.
